

2019 PIC Conference Workshop Summary: TVO Mathify

Presenter: Christine Luchies

TVO is proud to offer Mathify to Ontario students and educators. Based on the Ontario Curriculum and supported by the Ministry of Education, Mathify is a wonderful resource that helps students build their math skills and confidence.

Mathify is a *free* online math support for grade 7 – 10 students. Help is available from Sunday – Thursday 3:30pm-9:30pm. We offer a safe and supportive learning environment with 1 on 1 help with Certified Ontario Teachers using a seamless learning platform through an enriched online classroom tool.

Parents will have an opportunity to explore this valuable website during the workshop and learn the steps involved for registration.
