Using EQAO Results

Student

The school will use this information to:

- Drill down to individual questions and individual student
- Review student response data to survey questionnaires
- Share individual student reports with parents
- Use this and other available data to support student learning

School

School Leadership Teams will use this information to:

- Examine trends in achievement and attitudinal data
- Compare results with current program emphasis
- Look for areas for continued staff learning
- Modify School Improvement Plans, as needed
- Inform school monitoring processes

System

HDSB will use this information to inform:

- Operational Planning (and Multi-Year Plan development)
- Board Improvement Plan for Student Achievement and Well-being
- Budget and resource allocation
- System monitoring processes
