

# PIC Conference: Coding 101

Group Size: 25-30

30 Chromebooks

Selection of coding activities

3-5 students from Rolling Meadows to demonstrate coding activities and their creations

## Breakdown of Session:

### **5-7 minutes:**

- Introductions
- What is coding?

### **15 minutes:**

Students demonstrate some coding activities, share some games they have created

### **20-30 minutes:**

- Participants will try coding activities on Chromebooks (I will lead a beginner-level sample activity that the participants can try on the Chromebooks. I will project the activity on the wall and lead them through it, step-by-step, so that the participants can watch and follow on their device).
- Students will circulate to assist participants

### **10 minutes:**

- Closing discussion
- Q & A
