POLICY AND PROCEDURE FRAMEWORK

OBJECTIVE

This policy is intended to clarify the intent and purpose of Board policies and procedures, and the process by which they are drafted and approved.

DEVELOPMENT OF POLICIES AND PROCEDURES

Board Policies

A policy is a broad statement of intent, and reflects the goals of the Halton District School Board. Policies are typically drafted by the Director or designate, in consultation with third party advisors and the Board of trustees as appropriate, and must be approved by the Board of Trustees.

Policies shall provide direction and guidance in matters of board governance and system administration, and shall specify “what” and “why”: **what** is the strategic direction prescribed by the policy, and **why** is the Halton District School Board committed to the objectives outlined in the policy.

Policies shall be drafted so as to reflect statutory, regulatory and Ministry of Education requirements, and shall align with and inform the HDSB Multi-Year Plan.

The Board’s policies provide the framework within which Board procedures are developed.

Board Procedures

Procedures provide a detailed description of the processes by which Board policies are to be implemented.

A procedure answers the questions “how”, “when”, “who”, and explicitly “what”: **how** will the policy be operationalized, **when** and how often must the prescribed steps be taken, **who** shall be responsible for implementation and oversight, and **what** specific actions are required to comply with the policy goal.

Governance procedures, which prescribe the activities of Trustees, must be approved by the Board of Trustees.

Procedures which apply to administrative and/or operational activities must be approved by the Director, and provided to Trustees for information.

REVIEW OF POLICIES AND PROCEDURES

Board Policies shall be reviewed no less frequently than once every three (3) years, in accordance with a schedule to be approved by the Board of Trustees.

Board Procedures shall be reviewed frequently by the Director or designate to ensure that they continually provide the necessary operational guidance and meet the needs of system leaders.

The Director of Education shall be responsible for ensuring that applicable policies and procedures are reviewed according to the approved schedule, and as further required in response to changes in legislation, regulation, Ministry policy or direction, or resolution of the Board.

CONTENT AND ARCHIVE REQUIREMENTS

Board Policies and Procedures shall include:

- a) cross-reference(s) to the applicable companion policy or procedure, as the case may be;
- b) date of adoption, amendments if any, and subsequent review date, specifying month and year;

- c) a reference number;
- d) applicable statutes, regulations, PPM's and other Ministry policies, guidelines or directives.

All policies and procedures shall be archived and made available to the public on the Board's website forthwith upon approval by the Board of Trustees or Director of Education, as the case may be.
