

Date: December 17, 2020

Subject: **To Be Determine (TBD) Area boundary review**

The Halton District School Board plans to open a new elementary school, Oakville NE #3 ps, in the 2023/2024 school year (tentative date). Until Oakville NE #3 ps opens, students that move into the TBD Area need to be accommodated in existing schools. On [October 21, 2020](#), the Halton District School Board of Trustees approved the undertaking of a boundary review study for the Oakville TBD Area to temporarily direct students to existing schools. It is anticipated that this study will be completed by February 2021.

Information on the TBD boundary review study can be found on our website, www.hdsb.ca.

Note to current/potential home purchasers: The opening of Oakville NE #3 ps is tentative and is subject to change. A separate boundary review for Oakville NE #3 ps to determine school boundaries and programs will occur at a later date and will be initiated approximate one year prior to the opening of the school. **Please note** that if you live within the TBD area (area is outlined in red in the attached map), there is no guarantee that you will be attending Oakville NE #3 ps when it opens.

Note to the sales offices: Please distribute copies of this letter and map to your potential clients. Also share with clients that have already purchased so they can be updated with new school board information.
