# South Milton and Milton SE #13 ps Boundary Review

**BRC meeting #3.5**  
**Thursday October 17, 2024**  
**Virtual**

# Honouring the Land and Territory

We begin by acknowledging the land and our responsibility to care for and respect all that provides us with life. This land upon which HDSB is situated is on the ancestral, treaty and title lands of the Anishinaabek Ojibwe Michizaagiig Nation, now known as the Mississaugas of the Credit. Michizaagiig territory in the past and present continues to host both Indigenous and non-Indigenous peoples.

The HDSB is committed to continuous knowledge building with respect to actions that address and resolve the ongoing impacts of colonialism. We do this by learning and understanding the true history, treaty obligations, duties and responsibilities and Indigenous Rights while actively maintaining mutually beneficial relationships and collectively respecting and caring for the land.

# Housekeeping Items

## Removal of program (no-phasing)

- The program is removed immediately from the school to attend another school.
  - Limited opportunity for younger siblings of Grade 8 to remain at the same school if in FI. Could explore RT.
  - To remove an FI program:
    - 2025 - FI grades 2 to 7, grade will attend the new school. Grade 8 will remain at their current school.
    - 2026 - FI grades 2 to 8, grade will attend the new school.
  - Immediate increase to receiving school's enrolments.
  - Students can withdrawal from the FI program to attend the english program of their school (If the school is a dual track school and if they reside in the English catchment).

# Housekeeping Items

## Phase out of a program

- Phase out a program - one grade is eliminated per year.
  - No opportunity for younger sibling to remain at the FI school.
  - Minimum disruption to current FI students.
  - To phase out an FI program, the committee could explore a limited number of grades moving to another school (e.g. grades 2-4) to minimize disruptions, and phase out the program year over year.
  - Increase to receiving school's enrolments is gradual.
  - Students can withdrawal from the FI program to attend the english program of their school (If the school is a dual track school and if they reside in the English catchment).

# Housekeeping Items

## Mentimeter

- Only had 2 responses, so we will not be presenting the results as they are not representative.

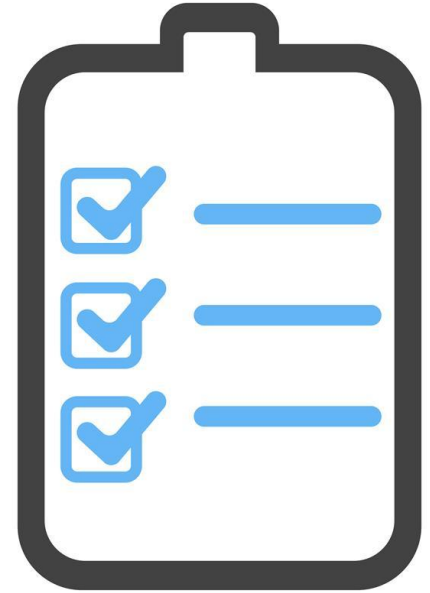

## Attendance

- Attendance is pretty low as of later - wondering if the group has some insights on why?

# Targeted Outcomes

1. Review Updated Options
2. Understand how each option impacts your school community
3. Discuss and listen to thoughts on the options
4. Remove options from consideration
5. Select top 2-3 options in reparation for the PIM

# PART 2

# Presentation of Options

## Criteria and Assumptions

# Criteria to Evaluate Options

Criteria to review options include but not limited to:

<p><b>Geographic Area and Barriers:</b> <i>Can boundaries comprised of multiple Zones that are geographically contiguous be created, taking into account any physical barriers (natural or constructed)?</i></p>	<p><b>Balance of Overall Enrolment:</b> <i>Is student access to programs, resources, and extracurricular opportunities optimal? Is over and underutilization of buildings avoided to the extent possible, reducing where possible the use of portable classrooms in the short, medium and/or long-term?</i></p>
<p><b>Viability of Programs:</b> <i>Can the number of students required to offer and maintain a program in an educationally sound and fiscally responsible way be maintained?</i></p>	<p><b>Stable Long-Term Boundaries:</b> <i>Do the projections show long-term stability and result in avoiding the need for additional boundary changes in the short term?</i></p>
<p><b>Student Experience:</b> <i>Can the number of school moves students have experienced be minimized? Can cohorts/families be kept together? What strategies can be employed to improve the transition of students resulting from a boundary review process?</i></p>	<p><b>Proximity to Schools:</b> <i>Are there opportunities for maximizing walk-to schools, safe school routes, and incorporating natural boundaries into the proposed options? Can transportation requirements and costs be minimized?</i></p>
	<p><b>Other:</b> <i>Other criteria recommended by the BRSC or BRC</i></p>
