 - (1) How is FI shown in the numbers when phasing out?
 - (a) There is no trend, so we are assuming that those who take FI will continue FI. With an increased attrition factor.
 - (2) With the increased traffic in Milton (CN Rail) would parents still consider transportation?
 - (a) Buses reduce traffic. We do not think at this time the CN rail will increase traffic to a large enough effect that it would impact the decisions of the Boundary Review.
